**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 24-40, drawn to a process of treating tobacco leaves.

Group 2, claim(s) 41, drawn to low nicotine tobacco leaves.

Group 3, claim(s) 42, drawn to low chloride tobacco leaves.

Group 4, claim(s) 43, drawn to low nicotine and chloride tobacco leaves.

Group 5, claim(s) 44, drawn to improved combustibility tobacco leaves.

Group 6, claim(s) 45, drawn to a process of using tobacco leaves

Group 7, claim(s) 46, drawn to a product containing tobacco leaves.

2. The inventions listed as Groups 1-7 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The corresponding feature of the claims is disclosed in US 5,040,550, and therefore the inventions lack a corresponding special technical feature

3. A telephone call was made to Benoit Castel on 6/10/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
